

1 MILWAUKEE ART MUSEUM

Home to the famous Calatrava, the museum carried out a major renovation in 2015 that included a 3,840 square foot green roof and look-out deck with views of Lake Michigan.

2 DISCOVERY WORLD

A science and technology center featuring a scale model of the Great Lakes, sustainability exhibits, and the Freshwater Sustainability Lab that empowers students to explore freshwater issues.

3 CENTRAL LIBRARY

Historic library with public 33,000 square foot green roof and photovoltaic solar array that generates about 36,000 kilowatt hours per year. (contact for tour info)

4 MILWAUKEE PUBLIC MUSEUM

The museum features a green roof as well as a solar wall that provides a real time display of the energy produced.

5 THE BREWERY DEVELOPMENT

A mixed-use development that transformed the abandoned Pabst Brewing complex into one of the most sustainable neighborhoods in the country.

6 BRADFORD BEACH

Named one of USA Today's best urban beaches, it is also Milwaukee's most popular outdoor amenity with rain gardens to reduce bacterial pollution, native plantings, and educational signage.

7 UW-MILWAUKEE

The university boasts numerous sustainable initiatives including multiple green roofs, stormwater management systems, and urban agriculture. Key sites include the Golda Meir Library's green roof and the rainwater spiral garden.

8 URBAN ECOLOGY CENTER: RIVERSIDE PARK & ARBORETUM

An environmental education center located in Riverside Park featuring rainwater restrooms, a green roof, and one of the largest solar power stations in Wisconsin.

Arboretum with 70 tree species native to Southeastern Wisconsin, variety of native wildflowers, grasses, shrubs, and plant communities on reclaimed post-industrial land.

visitmilwaukee.org

9 REED STREET YARDS

A future eco-industrial development, the Reed Street Yards will be home to over 1 million square feet of water research space. Infrastructure includes a system of urban bioswales, rain gardens, and educational demonstrations.

10 GLOBAL WATER CENTER

LEED Silver and first office building in the world to implement the International Water Stewardship Standard that holds over 40 water-centric companies, as well as the headquarters for The Water Council. (contact before visiting)

11 MMSD HEADQUARTERS

Milwaukee Metropolitan Sewerage District's Headquarters with a traditional green roof that can hold up to 1,500 gallons of water and experimental blue roof system. (contact before visiting)

12 88NINE

Headquarters of a popular non-profit radio station with an open community space and green roof.

13 CLOCK SHADOW BUILDING

Awarded by AIA as a Top Ten Green Project, this sustainable office building uses 50% less energy and features a green roof, geothermal wells, and the nation's first regenerative elevator.

14 FRESHWATER PLAZA (coming soon)

Mixed-use development with public promenade and water feature that incorporates cutting-edge water management techniques that separates the combined sewer system for the area.

15 UWM SCHOOL OF FRESHWATER SCIENCES

As the only school in the country dedicated to freshwater research, this division of UWM is home to the Great Lakes Water Institute. (contact before visiting)

16 URBAN ECOLOGY CENTER: MENOMONEE VALLEY

Transformed from 24 acres of wasteland, the environmental educational center located in the Menomonee Valley offers an outdoor learning area with easy pedestrian and bicycle access.

SITE FEATURES:

-  WATER
-  ENERGY
-  SOCIAL
-  ADAPTIVE REUSE
-  GREEN ROOF
